

⚡ Cloudflare Plan Comparison

Focus: Live Video Streaming + Dashboard Analytics (Updated 2026)

1. Pricing (Per Domain)

Free	Pro	Business
\$0 / month	\$25 / month	\$250 / month

2. Live Streaming & Bandwidth (Critical for you)

Feature	Free	Pro (\$25)	Business (\$250)
Bandwidth Cap	No hard cap	No hard cap	No hard cap
Fair Use Risk (Video)	HIGH (May get warning above 10-20TB/mo)	MEDIUM (Higher tolerance)	LOW (Priority handling)
Minimum Cache TTL (For live HLS segments)	2 hours ❌ (Too slow for live)	1 hour ⚠️ (Okay)	1 Second ✅ (Best for real-time)
Cloudflare Stream Add-on	Billed separately per minute of video (all plans)		

3. Dashboard & Analytics (Your Monitoring)

Feature	Free	Pro (\$25)	Business (\$250)
DNS / Traffic Data Retention	7 days	31 days ✅	31 days ✅
Cache Analytics (See what's cached)	❌ Not available	✅ Yes (7 days)	✅ Yes (30 days)
Real-time Logs	❌ No	⚠️ Limited	✅ Yes (Logpush)
Traffic Alerts	❌ No	❌ No	✅ Yes

4. Security (DDoS + SSL)

Feature	Free	Pro (\$25)	Business (\$250)
DDoS Protection (Critical for live streams)	Unlimited	Unlimited	Unlimited + PRIORITY (Faster mitigation)
Upload Custom SSL (Secure RTMPS ingest)	✗ No	✗ No	✓ Yes
Bot Management (Stop stream scrapers)	Basic	Basic	Advanced (ML-based)

5. Support (When your stream goes down)

Feature	Free	Pro (\$25)	Business (\$250)
Support Type	Community Forums only	Email (Business hours)	24/7 Live Chat ✓
Uptime SLA	✗ No guarantee	✗ No guarantee	100% Uptime Guarantee
Service Credits (If downtime occurs)	✗ None	✗ None	✓ Yes

My Simple Recommendation for YOU

Your Usage	Recommended Plan	Why?
Casual / Testing (Streaming rarely)	Stay on FREE (\$0)	Fine if you stream less than 5 hours/month and just need basic dashboard stats.
Regular Streaming (Weekly streams, growing audience)	UPGRADE to PRO (\$25/mo)	31-day analytics for better dashboard insight, better cache purge, and email support if bandwidth gets flagged.
Professional / Monetized (Daily streams, revenue dependent)	UPGRADE to BUSINESS (\$250/mo)	1-second cache TTL is critical for real-time latency. Plus 24/7 priority support and an Uptime SLA.

⚠ **FINAL WARNING ON VIDEO:** Video streaming uses massive bandwidth. The **FREE plan** is not designed for regular video delivery. If Cloudflare detects that > 50% of your traffic is video/audio files, they will send you a warning and force you to upgrade to Pro or Business. **If you are serious about live streaming, start with PRO (\$25) to be safe.**
